

AP Biology
Mrs. Carman

Advanced Placement Biology
Summer Reading

Dear AP Students/Parent

For the summer reading assignment you will be receiving copies of selected chapters from the AP Biology book we use *AP Edition Biology* (11th edition): Campbell (2018). **AP Biology students are required to purchase the newest version of this book for the fall. JCS will order the books and the student's account will be charged.**

I am assigning the following reading assignments (and self-quizzes located at the end of the chapters) to be completed **before the first day of school. This work is due the first day of school, and will be assessed and graded by the teacher.**

Read and **outline in detail**: Chapters **51, 52, and 54**; also **complete the self quizzes found at the end of the chapter**:

1. Chapter 51: Animal Behavior
2. Chapter 52: An Introduction to Ecology and the Biosphere
3. Chapter 54: Community Ecology

Due to the amount of material that must be covered during the school year, it is **MANDATORY** that each student complete this summer reading assignment prior to the beginning of the school year.

We will not spend a great deal of time on this material in class, so it is imperative that you read the chapters carefully and write comprehensive outlines on each chapter.

Students who have signed up for AP Biology for the school year 2020-2021 will be receiving a phone call on how we can get the copies of the chapters to you.

Serving you in Christ,
Mrs. Carman
